

Modular Sales Office - Fairfield Homes 1,960 sf

A Pac-Van modular sales office for residential sales is a cost-effective and fast space solution

Your modular office can take any form or finish, inside and out. You dream it and we design it, build it, deliver it and install it!

This 1,960 sf modular facility is a full-sized replica of the lofts the customer is selling in Colorado. Exterior features include a stucco and brick finish and a 20' high faux roof that resembles the customer's product. Interior details include beautiful hardwood flooring, can lighting, a gas fireplace, granite countertops as well as 2 offices and a reception area for the staff. Best of all, this facility was built and completely ready for "work" in 2 months - once again proving that the "accelerated construction process" of modular is an advantage in business.
