

Permanent Modular Sales Office - Harmon Koval/W

A Pac-Van modular sales office for residential sales is a very cost-effective space solution

Your modular office can take any form or finish, inside and out. You dream it and we design it, deliver it and install it!

This modular sales pavilion was designed for use as a sales arena for a high rise condo project. The reception area 24' wide glass wall at the entry was created by the use of a steel header that supports the mod-line. The 10' ceilings are enhanced by coffers, indirect lighting & crown molding. By varying the length of the modules, a model area was created so that each condo model could be duplicated within the sales pavilion. Exterior is finished with a combination of EIFS and Galvalume (metal) panels. Roof mounted HVAC's and structural parapets were added.

Experience You Can Trust - Quality You Demand

When time is of the essence, the quick construction of modular buildings make them ideal for residential sales offices. Pac-Van offers flexible lease or purchase plans. Learn more about modular buildings at:
