

Modular Classrooms

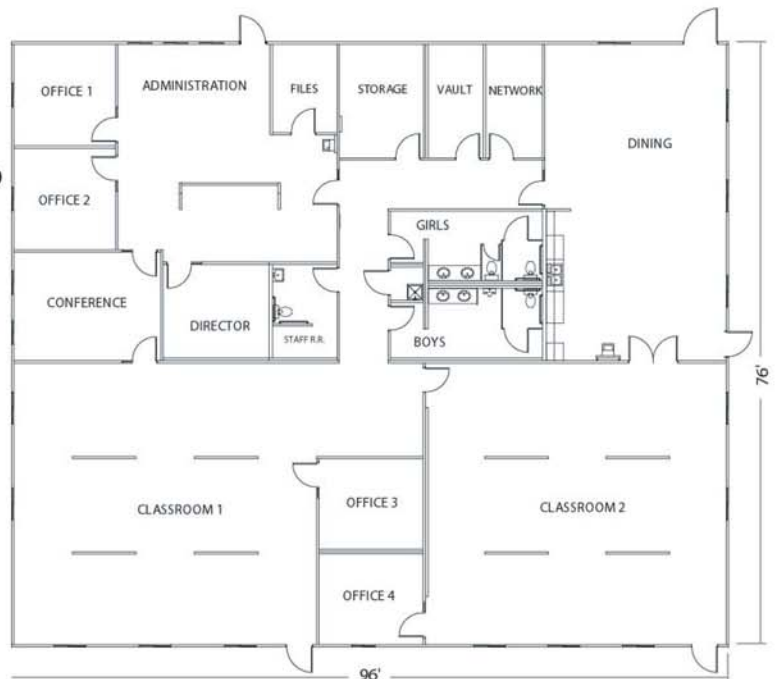

Tuba City Schools Alternative Learning Center

Building Specifications:

76' x 90' Multi-Classroom Facility
6,840 Sq Ft

This 6,840 sq ft modular office and classroom combination is used as an Alternative Learning Center that accommodate 65+ full time students. The exterior exhibits Southwest style with its stucco finish, paint schematic and canopied entryways. The exterior parapet is a perfect screen for the roof mounted mechanical units. The floor plan consists of two classrooms with computers and a cafeteria for children & staff - complete with all of the necessary appliances. All of this was constructed and installed in 90 days!

Experience You Can Trust - Quality You Demand

When time is of the essence, the quick construction time of modular buildings make them ideal for school expansions. Pac-Van modular buildings are built from the same durable materials as traditional construction and meet all prevailing state and local codes.
