

Modular Facility - Siena Community Social Center

Modular community and recreation facilities: Quick, cost-effective permanent or temporary solutions

This 10,000 sf modular building is not only aesthetically pleasing, but its floor plan is designed to allow extreme flexibility for the residents who use this community center clubhouse. For instance, a computer lab, craft room, card room, and social area with a dance floor are all included in this building. This open area was created through the use of clear span trusses and steel headers. Although this may seem like a complex endeavor, it was delivered in 60 days!
