

Modular Sales Office - Highland Creek - 1,344 sf

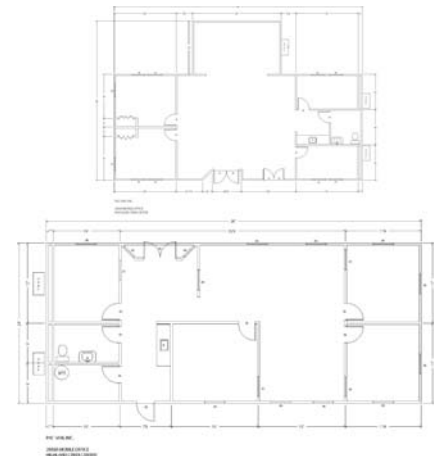

A Pac-Van modular sales office for residential sales is a cost-effective and fast space solution.

Your modular office can take any form or finish inside and out. You dream it and we design it, build it, deliver it and install it!

This modular sales office project perfectly illustrates two of the key benefits of modular construction: an accelerated building process and an eco-friendly one as well. This was a used building that was modified to suit a customer's immediate need. The existing structure was delivered to the site where a new self supported roof system was added to mimic the look and design of the new homes that would be sold out of the office. Pac-Van delivered this project in 31 days, once again proving that speed is a key benefit of modular.
