

# Modular Classrooms & Nurseries - Northeast Christian Church Nursery

## Modern modular church buildings will save you thousands of dollars in construction costs

Whether a congregation of 5000, or a day school for 50, Pac-Van-quality prefabricated modular church buildings deliver major economies for your building fund.

This 3,600 square foot building was designed to be used as a nursery. The building is comprised of 6 - 12x50s and includes many extras including two storefront doors with canopies, a covered walkway from the back door to the main building, and upgraded carpeting and padding throughout. Despite many rain delays, this project was completed in 120 days.

### Experience You Can Trust - Quality You Demand

When time is of the essence, the quick construction time of modular buildings make them ideal for church applications on a budget. Pac-Van offers flexible lease or purchasing plans.
